## What is Independent Learning?

Independent Learning is a key part of your child's development and strengthens the links between home and school. Please encourage your child to be an independent learner with their learning. You can support your child by encouraging them to be a growing brain and try their best!

Each week we will be sending a Maths and English challenge for your child to complete. These are the non negotiables within your child's year group which are considered the core objectives a child needs to achieve in order to make good progress in learning the following year. When children hand in the home learning books each week, we will celebrate all the learning and practice children have done as a class.

As well as weekly English and Maths challenges, we will also be sending a half termly home learning project which links to the learning project we are covering at school. This is to be handed in during the last week of each half term.

This half term's big learning question is...

## Why is London such a cool place to live?

Your challenge is to make a documentary / presentation about how London has changed over time and why it is/has been such a major attraction to tourists and business.

Children can present in any format they want.

**Due date—Wednesday 13th July 2022**

## Swimming

4TR Tuesday and 4PG Friday - both classes with Mr Read

### English Challenge

This week we have been looking at a film with a tree house in it. Can you write a description of your dream tree house and underline any expanded noun phrases you have used?

Don't forget!

Please make sure you bring correct PE kit – all black T-shirts, shorts, joggers or leggings.

## Spellings (Progress checks on Monday and Friday)

All our weekly spellings are now on Spelling Shed online. Your child should have a login and password for this. You can access the website by going to <https://play.edshed.com>

Over the next two weeks we are preparing for the Multiplication Tables Check (MTC) due to take place in the summer 2 term. It is essential that all Y4 children know their times tables from  $1 \times 1$  to  $12 \times 12$  and are able to recall them in under 7 seconds. You can support your child with the MTC by engaging with Times Tables Rock Stars every day for 30 mins, writing out times tables, chanting or making up a little rap to help remember. Here are some websites that replicate the test—why not have a go versus an adult!
